

A Fast, and Affordable Scanner!

Scan to cloud servers

### AD130

Combining a flatbed scanner with the convenience of a 50-page ADF, the AD130 is a compact and affordable productivity scanning solution delivering 20 pages per minute and 40 images per minute at 300 dpi. The combination of high productivity and affordability makes this series the obvious choice for reducing the total cost of scanning.

### Easy-to-use button scanning

The AD130 is easy to use through the LCD display and buttons on the panel. By selecting your destination and pressing the "Scan" button, you can scan document to searchable PDF, JPEG, BMP, or GIF file format, and send the scanned image to a preprogrammed destination such as e-mail, printer, image editing software application, or even a cloud server such as Google Drive, Dropbox, Evernote, or Microsoft SharePoint. Scanning is simply that easy!

### Compact and earth-friendly design

The AD130 is compact and earth-friendly in design since it uses CIS (contact image sensor) technology which requires smaller space and the LED lamp as the light source. The LED lamps are lower power consumption and are designed to last for the life of the scanner, and their bright light renders true illumination to enable accurate color imaging.

### Automatic multiple images cropping

In addition, the scanner comes with the convenient feature of multiple images cropping. With this feature, various sizes of documents such as photos, ID Cards, or business cards can be placed on the flatbed and the scanner is able to crop and create multiple images according to the original sizes of the documents in one single scan.

### Advanced settings via TWAIN driver

For advanced users who wish to control scan settings and obtain the best image quality, the Avison's AD130 is able to scan through Avison's advanced TWAIN user interface from TWAIN-compliant software application. Avison's TWAIN user interface provides various useful features to enhance your image quality including auto crop and deskew, auto color detection, color matching, color dropout and so on.

### Powerful bundled software applications

The Avison AD130 comes with TWAIN and ISIS drivers, and is bundled with a suite of powerful software applications that include Avison Button Manager, AvScan X, and Nuance PaperPort 14. With Button Manager, you can scan to searchable PDF, JPEG, BMP, or GIF file format, send the scanned image to a specified destination such as e-mail, printer, or other application with a press of a button. The AvScan X and Nuance PaperPort are highly effective image processing and document management software that helps you streamline your task more efficiently.

# Avision | AD130 Document Scanner

## Avision's Button Manager V2 Completes your scan with a single step

Button Manager V2 makes it easy for you to scan and send your image to your favorite destinations with a press one button. Now the new version comes with an innovative feature to let you scan and automatically upload the scanned document to popular cloud repositories such as Google Docs, Microsoft SharePoint, or FTP. In addition, the iScan feature allows you to insert the scanned image or recognized text after optional OCR (Optical Character Recognition) process to your text editor such as Microsoft Word to get your job done easily and quickly.

## AVScan X The Intelligent Document Management Tool

Document Imaging is the very first step of Document Management. However, poor quality images can cause serious problems to later indexing or storing processes. It may increase scanning labor costs and lowers the OCR accuracy. AVScan X ensures all documents are checked and polished at the time they are scanned such that the image quality is guaranteed before they are ready to use for other purposes. AVScan X is an intelligent scanning and electronic filing solution. AVScan X possesses distinct features that convert and index scanned information into electronic documents for easy storage and fast retrieval.

## Nuance PaperPort The Professional Choice to Organize and Share Your Documents

PaperPort SE 14 is Nuance's most popular scanning and document management solution, carefully designed specifically for home office use. Part traditional file cabinet, part digital-document desktop, PaperPort SE 14 is the fastest and easiest way to scan, share, search and organize your documents. Additionally, PaperPort SE 14 now delivers anytime-anywhere access to your most important files however it's convenient for you – using a PC, Mac, iPhone, iPad, or Android device.
