The Avison AV320E2+ is our most advanced and powerful high speed sheet-fed document scanner. It is capable of scanning documents up to A3 sizes, ensuring a wide range of document compatibility at your workplace. Equipped with new and improved anti-skew rollers, it can take virtually any A8 to A3 size mixed documents you throw at it.

The most amazing aspect of the AV320E2+ is its incredible scanning speed – an outstanding high speed of 60 ppm / 120 ipm at 300dpi resolution in color, grayscale, and B&W mode.

### Ultrasonic Multi-Feed Detection

With the built-in ultrasonic multi-feed detection capability, the scanner allows you to set overlapped paper by detecting paper thickness between document. When multi-feed is detected a warning message will be prompted.

### Long Document Scanning

The AV320E2+ provides you a convenient feature to scan long-page document up to 118" (300 cm). This is a cost and time-saving solution for insurance company and healthcare institutions that need to digitize insurance bills and patient's records.

### Intelligent Image Enhancement Tool

When the original documents are contaminated or damaged, containing marks, white fonts, etc., the intelligent image enhancement tool helps you create sharp and crisp image.

### What we have bundled

The Avison AV320E2+ comes with TWAIN and ISIS drivers, and is bundled with Avison Button Manager V2, Avison AvScan 5.0, and Nuance PaperPort SE 14 software application.

Button Manager V2 makes it easy for you to scan and send your image to your favorite destinations with a press one button. Now the new version comes with an innovative feature to let you scan and automatically upload the scanned document to popular cloud repositories such as Google Docs, Microsoft SharePoint, or FTP. In addition, the iScan feature allows you to insert the scanned image or recognized text after optional OCR (Optical Character Recognition) process to your text editor such as Microsoft Word to get your job done easily and quickly.

Document Imaging is the very first step of Document Management. However, poor quality images can cause serious problems to later indexing or storing processes. It may increase scanning labour costs and lowers the OCR accuracy. AvScan 5.0 ensures all documents are checked and polished at the time they are scanned such that the image quality is guaranteed before they are ready to use for other purposes. AvScan 5.0 is an intelligent scanning and electronic filing solution. AvScan 5.0 possesses distinct features that convert and index scanned information into electronic documents for easy storage and fast retrieval.

PaperPort SE 14 is Nuance's most popular scanning and document management solution, carefully designed specifically for home office use. Part traditional file cabinet, part digital-document desktop, PaperPort SE 14 is the fastest and easiest way to scan, share, search, and organize your documents. Additionally, PaperPort SE 14 now delivers anytime-anywhere access to your most important files however it's convenient for you – using a PC, Mac, iPhone, iPad, or Android device.
